Explosives,
Container,
23 January 1958 Clam Type
mk II

MEMORANDUM FOR: TSS/Logistics Branch

FROM : TSS/ ED

SUBJECT : Storage of Items in Special Projects Area [redacted] 25X1

1. It is requested that arrangements be made to store five crates of Containers, Clam Type, MK II in the special project area [redacted]. 25X1
These containers not complete or finished items, but are only plastic bodies (essentially "seconds") made during the production of 1000 in April 1957. They are suitable only for special testing.

2. The five crates are approximately 18" X 14" X 24" each and contain approximately 100 bodies each (total approximately 500).

3. These crates are presently located in the area just outside the supply room [redacted]. 25X1

4. Please advise this office when a lot number has been assigned to this group of items. 7w. 8003-FS-111

[redacted] 25X1

DD/P/TSS/ED/RBDowney:an

[redacted] The main mold for injection molding 25X1
of the clam body is in one of the
above boxes.

On Jan 30, I visited [redacted] to check 25X1
on the mold and found it in the group
of boxes. They are now stored in
Special Project Open Bay and are
tagged FS-111
